Summary

I'm a highly passionate, inquisitive data analyst aspirant, currently studying bachelor degree of Information Technology specializing in Business Information systems & Data Science Minor.

Experience

Project Consultant Intern at The Global Student (June 2025 – Present)

- Working out a data-augmented business report consisting of potential strategies and solutions related to bolstering educational consultancy services for prospective International students.
- Pitching to the company's executives and organizing meetings to work collaboratively in a team of 7.

Head of Business Development at PPIA Victoria (November 2024 – Present)

- Manages a team of 12 members, along with a co-head partner, to reach out prospective corporations to procure sponsorships and partnerships, procure grant from well-established governmental and non-profit entities, and organize several highly-intensive fundraising initiatives.
- Successfully garnered over **\$3000 AUD** from financial sponsorships, fundraising initiatives, and forged several lucrative partnerships with top companies such as Garuda Indonesia Airlines, RACC, Grace International, etc.

Talent Management Officer at AIESEC Australia in Monash University (January 2025 – Now)

- Analyzes valuable human resources data of 60+ committees to derive useful insights for maintaining club engagement and effectiveness in decision-making on culture and sense of belonging.

Event Coordinator at Monash DeepNeuron (December 2024 – Now)

- Conducts feasibility planning on highly-engaging events ideas, thoroughly engages in key meeting throughout the pipeline for optimal stakeholders management and delegate servicing.

State Conference Facilitator at Victoria State at AIESEC Australia Ltd (March 2025 – April 2025)

- Worked in a team of 10 highly-ambitious and enthusiastic people with whom I was involved in crafting and leading one of the main sessions during the Victoria Conference attended by 150+ delegates.

Step Ahead Vice President at AIESEC Australia Monash University (September – November 2024)

- Impacted 40+ students and successfully organized the event with 90% satisfaction rate from 30 delegates, through continuous delegate engagement and intensive collaboration with client on meetings.

Partner Relations Officer at AIESEC Australia Ltd in Monash University (July 2024 – November 2024)

- Awarded as the Best Member of Partner Relations at AIESEC in Monash 2024.2
- Provided support and ensured a smooth experience for event delegates during the Career Navigator workshop led by Dr. Kaushik Sridhar, resulting in 4.8 out of 5 ratings from 30+ delegates.
- Researched and analysed numerous prospective partners with aligned values, worked with company leaders along with 20 different organisations to establish partnerships.

Project

Monash Innovation Guarantee – Microsoft (January 2025 – February 2025)

Worked collaboratively with a team of 6 people alongside Microsoft as the industry partner and designed AI-integrated solution of hotspot identification system and Monash chatbot that would be integrated into the student study app.

Education

Monash University – Bachelor of IT in Business Information Systems & Data Science Minor (July 2023 – Present)
